Imagined Transnationalism?

Mapping Transnational Spaces of Political Activism in Europe's Long 1970s

Prof. Dr. Kiran Klaus Patel in cooperation with Prof. Dr. Sonja Levsen

This project analyses the spectrum of political activism during Europe's long 1970s. In doing so, it combines an empirical interest in bringing out the diversity and complexity of the various movements with a conceptual agenda. We argue for a more fine-grained understanding of transnational spaces and distinguish imagined spaces of belonging and solidarity, spaces of knowledge circulation, and spaces of social experience and political action. The project builds on two workshops and will lead to a special issue at the journal *European Historical Review* in 2022.
